Module 1.3 Assignment

CSD 340-A339

Error Screenshot

The screenshot shows a web browser window with the address bar displaying `https://validator.w3.org/nu/#textarea`. The page title is "Nu Html Checker". Below the title, a message states: "This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change". The main heading is "Showing results for contents of text-input area".

The "Checker Input" section shows the input HTML code:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <title></title>
</head>
<body>
</body>
</html>
```

The "Check" button is visible. Below the input, a message says: "Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings." The "Message Filtering" button is also visible.

The "Message Filtering" section shows three errors:

- Error** Element `title` must not be empty.
From line 4, column 12 to line 4, column 19
`<title></title></head>`
- Error** Saw an end tag after `body` had been closed.
From line 11, column 1 to line 11, column 7
`</body></thml>`
- Error** Stray end tag `thml`.
From line 11, column 1 to line 11, column 7
`</body></thml>`

A blue bar at the bottom of the error list says "Document checking completed." Below this, the "Source" section shows the original HTML code with line numbers:

```
1. <!DOCTYPE html>
2. <html lang="en">
3. <head>
4.   <title></title>
5. </head>
6.
7. <body>
8.
9. </body>
10.
11. </thml>
```

At the bottom, it says: "Used the HTML parser. Total execution time 1 milliseconds."

Screenshot with no errors
